#### WE WELCOME YOU TO THE FORMAL LAUNCH OF

# THE FOOD as HEALTH ALLIANCE

### DIRECTOR

Alison Gustafson, PhD, MPH, RDN
Professor Dietetics and Human Nutrition
College of Agriculture, Food, and Environment
College of Nursing

### PROGRAM COORDINATOR

Lauren Batey, MS, RDN
Dietetics and Human Nutrition
College of Agriculture, Food, and Environment

## MISSION

To increase and sustain the University of Kentucky's impact in the interdisciplinary arena of food, agriculture, and health for the Commonwealth. This institute will guide researchers, educators, clinicians, and outreach staff to create precision nutrition using responsive agriculture for residents of Kentucky and beyond.

#### THE FOUNDATION OF OUR ALLIANCE

### UNDERSTANDING the FOUR PILLARS

Partnership with RPA Diabetes and Obesity, Markey
 Cancer Center, and Center Health Equity
 Transformation to provide two pilot projects

 Philanthropy efforts which have provided gift donations from Beef Council, Instacart, Appalachian Regional Healthcare, Food City, and Kentucky Association of Health Plans

- Internal funding with Cooperative Extension and UKHealthcare
  Healthy Kentucky initiative to fund several video recipe
  demonstrations with clinician clinical providers, Registered
  Dietitians representing various diet-sensitive health outcomes
- Launch of communication plan FaceBook, Instagram, Website
- Networking events and presentations across the state to engage with food, agriculture, healthcare, non-profit, industry and many others to create our Alliance partners

### WHAT WE ARE TESTING

### CURRENT PILOTS across KENTUCKY

**URBAN** 

Given the very different needs and resources in our state there is no one size fits all approach. We are developing and evaluating different models to be able to offer Medicare and Medicaid providers a menu of options.

#### **MODEL A**

- Grocery prescription delivery
- Partner Instacart
   "Fresh Funds" and
   UKHealthcare
   (Ob/GYN and primary
   care)

LEXINGTON

#### MODEL B

- Medically Tailored
   Meals
- Partner Dare to Care
   Food Banks and UofL
   Healthcare (Ob/GYN
   and primary care)

LOUISVILLE

#### MODEL C

- Meal Box kits tailored
- Partner Food City and Appalachian Regional Healthcare (ARH)
   primary care clinics

HARLAN & FLOYD COUNTIES

#### **MODEL D**

- Produce Prescription program
- Partner Community
   Farm Alliance/God's
   Pantry and FQHC
   (primary care clinics)

**MARTIN COUNTY** 

Population: 1)women with GDM or T2DM (some referred from the Pathways program which offers substance abuse programing) 2) Medicaid Adults T2DM and HTN

What is available in our urban communities is not available in our rural communities and we need to develop and test different approaches given the resource constraints.

#### **UNDERSTANDING THE PROCESS**

## HOW WILL Me PROGRAMS WORK?

Provider screens and refers to food as medicine program

Three types: Produce
Prescription/Grocery
Prescription/Medically
Tailored Meals

Consumer redemption of program via home delivery, distribution center pick up, or instore purchase

Reduction in HbA1c, HTN, cancer survival rates & healthcare costs

## RECIPES and NUTRITION VIDEOS

- Video 1: Greek Style Steak Pitas for diabetes is complete and available on our website and YouTube channel
- 10 more videos filmed in April are now in production
- Recipe cards developed along with nutrition and cost analysis, all available on the website

## TEACHING and TRAINING

- Clinician training videos in development with ARH for summer 2023
- Extension agent training on food as medicine concepts planned for August 2023
- Full Extension curriculum in planning stages

### POLICY APPROACHES

- Working with KAHP we want our research to inform policy approaches for screening, referral, and reimbursement through state Medicaid programs
- Our partnerships also aims to be interwoven into the Farm Bill for sustainable policy change. it is being considered as part of the package of requests on the university's priority list for the 2023 Farm Bill. Over the next few months, we'll be identifying opportunities to advance various proposals with members in Kentucky's federal delegation.

### GRANT SUBMISSIONS

- NIH Centers for Excellence in Food as Medicine
- RWJF
- Emerging Themes in Research
- NIH R 01 NIDDK

#### LOOKING AHEAH

## PLANS Journe NEXT YEAR

This work is being funded by the generous support of:

### OUTCOMES in FIVE YEARS TIME

1

30% growth in funded grants from NIH, CDC, USDA, NFS and other foundations 2

\$1 million
Reduction in
healthcare costs
and associated
health
outcomes of
these dietsensitive
diseases

3

30 Different
Training
Modules
delivered to
various
organizations
(Clinics,
Practitioners,
Researchers
Students,
Extension)

4

75% of
Extension
professionals
will be trained
and deliver new
programming
to allow
residents to
access to
healthcare
services

5

50% of producers will be connected to at least one food as health program (Food pantry boxes, produce prescription, meal delivery)
